

# MWF 1200

Mobile filter system suitable for many tasks in the field of filtration of fumes, dusts and gases. The MWF 1200 is perfect for the separation of fumes, released by welding, cutting and joining during the processing of non-alloy and high-alloy chromium/nickel steels.

only  
45 dB(A)

Probably the quietest device on the market!

## Technical Data :

- Plug 'n' Play
- Voltage: 230V / 50 Hz
- Power consumption: 82-162 Watt
- Low noise level with only 45-58 dB(A)
- with multi-stage filtering
- with extraction arm - 3m
- High performance max. 1200 m<sup>3</sup>/h
- Easy Filter Change
- Weight: 95 Kg
- Dimension: 70x70x90 cm
